

FITTING GUIDE

Rings

At Ronald Abram, we would like to ensure your ring is the perfect fit.

Visiting a jewellery professional will always provide the most accurate measurement but this guide offers the next best solution.*

If you would like in-person assistance, please visit our salon at The Mandarin Oriental Hotel in Hong Kong for our complimentary measuring service.

How to Measure

Please print this measuring system on A4 paper and make sure your printer settings are set to print at "100%" or "Actual Size". It should NOT be set to "Fit to Page".*

Use the credit card line below to ensure the scale is correct.

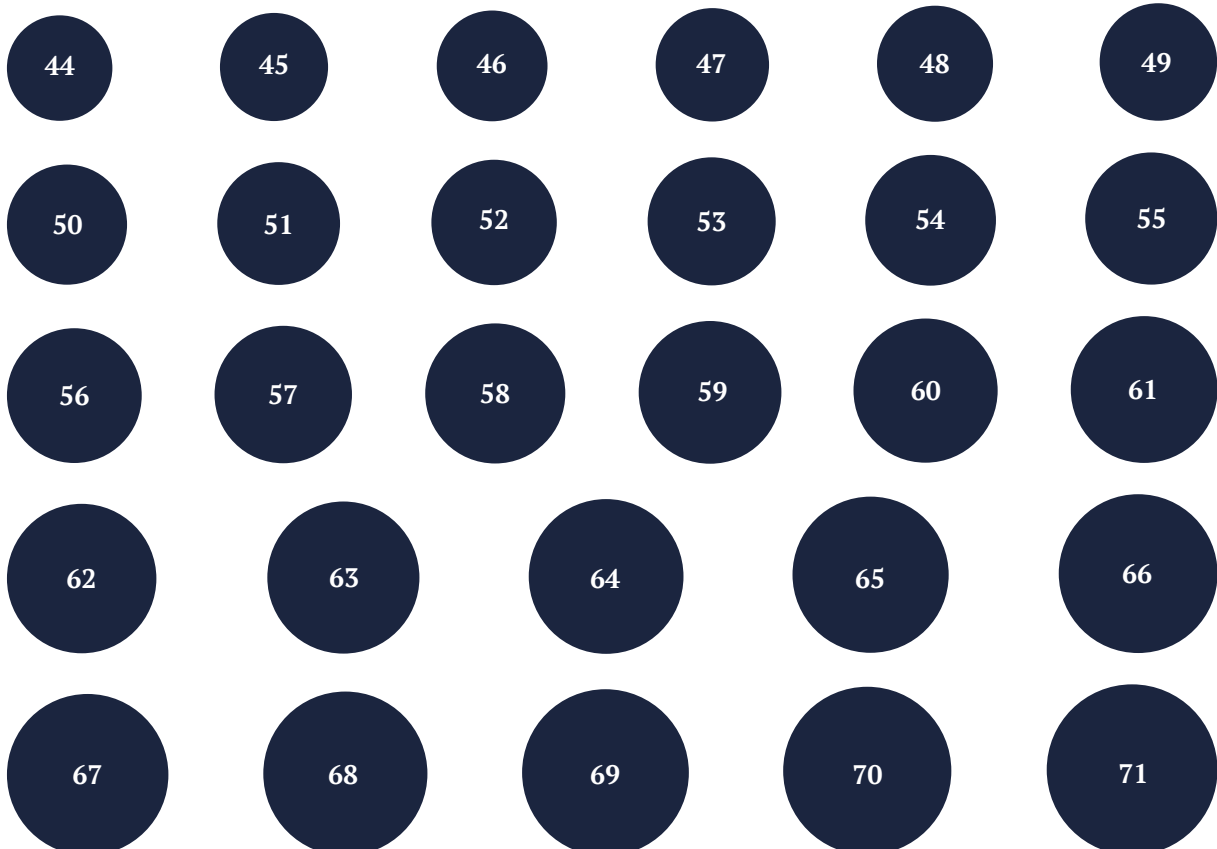

Place the credit card here

Step 1 Once printed, take an existing ring from your collection and place it on one of the circles below to find your size.

Step 2 The circle should fit perfectly within the inner edge of your ring until the circle completely fills the inside of the ring without overlapping.

Step 3 Record the size

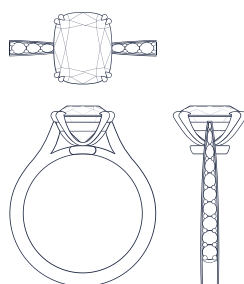

*Disclaimer: The size guide only provides a size reference. Ronald Abram takes no responsibility for inaccurate measurements. Please read our returns policy carefully.

Considerations

◆ Ring size can vary depending on the time of day and weather/temperature conditions.

◆ Ring size will also vary across both hands.

◆ Size may also vary according to ring design. A wider ring band may be a more snug fit compared to a narrow or slim band.

◆ Multiple ring resizing is not suggested as it may weaken the structure of the piece, so an accurate measurement is essential.

◆ Certain designs are not resizable, including most eternity bands.

◆ You are welcome to contact us for further measurement advice.

Ronald Abram Ring Sizer

A complimentary ring sizer is available for those wishing to purchase a Ronald Abram piece.
